

## DEMOCRATS GIVE MORE THAN HALF MILLION TO CAMPAIGN IS SHOWN

### WARD TAKES AND BEFORE INVESTIGATORS

Insurer Tells How Funds Were Donated to Party Sum.

Shaver Also Gives Figures Showing Deficit Will Occur

Washington, Oct. 22.—Senator William F. Borah's investigating committee, having completed a general survey of the campaign expenditures of the three major political parties, has turned specifically to inquire into the charges of Senator Robert M. La Follette of the existence of a Republican "slush fund."

Frank P. Walsh of Kansas City and Carl Untermyer of New York, attorneys representing Senator La Follette, were on hand to press the case of the progressives before the committee and to participate in the examination of the Republican leaders summoned by Senator Borah.

Washington, Oct. 22.—More than one-half million dollars has been contributed to the Democratic campaign and to date, it was disclosed at the senate committee's investigation here.

James W. Gerard, treasurer of the Democratic national committee, took the stand when the special senate committee resumed its inquiry. Gerard presented a statement of Democratic finances brought up to date, which showed that a total of \$548,000 had been contributed to the Davis-Bryan campaign.

Chairman Borah quizzed Gerard regarding the clients of Thomas L. Adair, the law firm of Chadbourne, Adams & Co., which was one of McAdoo's chief supporters in the New York convention, contributed \$20,000.

Gerard said that John D. Ryan of New York, who contributed \$5,000, was with the Anaconda Copper company in Montana.

"Who is Francis P. Garvin, who contributed \$10,000?" asked Borah. "He was alien property custodian."

"And connected with some litigation with the government?" "Yes," Gerard said. "He saw no prospect of getting the \$1,500,000, as some reports indicated would be raised by the Democrats. 'If that amount were attributed we would accept it,' he said, 'but I believe that \$750,000 will be sufficient to finance the campaign.'"

Gerard supplied the committee with a list showing that \$29,700 had been contributed by the national organization to state committees. The list was: New York \$2,000, South Dakota \$2,500, New Mexico \$7,500, Idaho \$1,200, Montana \$2,000, Nebraska \$7,000 and Kentucky \$2,500.

Gerard testified he knew of no connections from business organizations which might benefit by the campaign.

In reply to Frank P. Walsh, personal attorney for Senator La Follette, Gerard said that there was no organization in the country collecting and turning it over to the national committee.

Shaver Testifies.  
Gerard was then excused and Clem Shaver, chairman of the Democratic national committee, was called to the stand. Shaver said he expected there would be a deficit of between \$1,000 and \$150,000 unless contributions increased between now and election day.

He said any of the funds listed for "Society editorials" Walsh asked. Shaver replied.

### ROYAL ENGAGEMENT TO BE ANNOUNCED.

CROWN PRINCE LEOPOLD & PRINCESS MAFALDA.

According to dispatches from Rome, the engagement of Princess Mafalda, daughter of the Italian monarchs, to Crown Prince Leopold of Belgium will be officially announced on either November 4 or on November 11, the latter date being the King's birthday. At one time it was reported Princess Mafalda was desperately in love with Prince Nicholas of Roumania, now a midshipman on the British cruiser Benbow, and that she had threatened to kill herself if compelled to marry Leopold.

## THREE MOTORISTS KILLED WHEN AUTO TURNS OVER IN CANAL PINNING DOWN OCCUPANTS

Geneva, N. Y., Oct. 22.—Caught under their car when it turned bottom up in the Cayuga-Seneca canal after having plunged through a guard rail, three motorists were dead today.

Two others, women members of the party were rescued in the last stage of exhaustion by other motorists. The dead:

- Harold Dewees, of Phelps.
- Frank Tower, Geneva.
- Edward Parish, of Geneva.
- Mrs. Ida Towers, wife of one of the aviators.

## SHANGHAIKUAN IS SCENE OF BITTER FIGHTING IN CHINA

Washington, Oct. 22.—Shanghai, through whose gates Chang Tso Lin's Manchurian forces must march if they are to besiege Peking, China's capital is now the scene of the bitterest and most bloody fighting in the internecine war ravaging the country, according to dispatches reaching Washington today.

To the victor of the battle will virtually go the ultimate victory in the civil war. Half of Shanghai is in the hands of Chang's men, advises stated and half is still held by General Wu Pei Fu, commanding the Chihli (Peking government) forces.

Wu's troops are entrenched on "Shanghai castle," the natural fortress formed where the mountains dip down to the sea, and have restricted bold attacks of the Manchurians to storm the heights several times with heavy losses to both sides, way inside the great wall and are now in control of the railway station and the NanKuan quarter and overflow the city, which stretches a half mile between the railway station and the city proper.

## DONAHEY DENIES DEAL WITH KLAN

Columbus, Oct. 22.—Governor Donahey branded as a "deliberate lie" the report printed in a Cleveland newspaper that he has entered a deal with the Ku Klux Klan for its endorsement. "I have never solicited the Klan support nor has any such proposition been made to me," Donahey said. "I have never solicited the support of any organization, as such, nor the endorsement of any organization. But I do want the support of all citizens of Ohio who believe in constitutional government and in common honesty in government."

"The Democratic state executive committee will give \$1,000 for any proof substantiating the 'klan deal' charge," said T. E. Dye, Democratic state campaign manager.

## STAKES TOTAL \$100,000,000 IN BIG TRIAL

### Government Oil Lease Case is Called In California Court

### Formidable Array Of Legal Talent Takes Part In Case

Los Angeles, Oct. 22.—The government suit to break the leases granted M. L. Doheny and the Pan-American Petroleum corporation on the Elk Hills naval reserve in Kern county, Cal., was called in Federal Judge Paul J. McCormick's court.

A formidable array of legal talent was present for the trial, in which the stakes are conservatively estimated at \$100,000,000.

Owen J. Roberts of the government opened the case. He started with an outline of the plaintiff's charges, taking up the history of the lands in question from the time they were withdrawn for naval purposes by President Taft, and then turned to the matter of the Doheny loan to Albert E. Fall, historic because of its place in the senate investigation last spring.

The attorney told how on Nov. 30, 1921, Doheny drew out of his bank account the \$100,000 for Fall; how the note given by Fall was later mutilated, and declared that at any rate it was certainly not "enforceable paper." Shortly after the loan, Fall invested \$100,000 in New Mexico ranch property, Roberts alleged, and within two weeks "had met the requests of the Pan-American Oil company for certain leases in reserve No. 1," which were soon followed by others.

Frank J. Hogan, chief counsel for the defense, declared in his reply that the part played by Albert E. Fall in making contracts with the Doheny companies was "so slight as to be almost negligible, and the part played by Doheny, while not quite so slight, was really unimportant." He characterized as "without foundation" the charge that the executive order transferring the administration of the naval reserves from the navy to the interior department was induced by false representations made to the president by Fall. Equally "baseless," Hogan asserted, was the accusation that Fall and Doheny had conspired to defraud the government. He referred to the \$100,000 exchanged between Doheny and Fall and said that evidence would be adduced to disprove that this was a bribe and witnesses would show that this was purely a personal and friendly loan between friends of long standing.

Concluding, Attorney Hogan stated that "we purpose to expose an almost inconceivable story of the deliberate misrepresentation of known or easily ascertainable facts and the unblushing distortion of the truth which have made as unlike as day and night the case heretofore presented to the public and the case now to be submitted to this court."

## DAUGHERTY ORDER VOID SAYS STONE

Cleveland, Oct. 22.—The Daugherty injunction against striking railway shopmen has been made void by the supreme court decision that railway employees who joined the shopmen's strike in 1922 were entitled to jury trial when charged with contempt of court, according to Warren S. Stone, president of the Brotherhood of Locomotive Engineers, who issued the following statement: "Every good citizen, regardless of whether or not he belongs to a labor union, ought to be gratified that the United States supreme court has upheld the provisions of the Clayton anti-trust act, requiring jury trials for workers charged with contempt of court during industrial conflicts. The decision of the supreme court throws an interesting sidelight upon the illegality of ex-Attorney General Harry Daugherty's injunction against the striking railway shopmen. It was upon the appeal of some of these victims of government by injunction that the decision has been rendered."

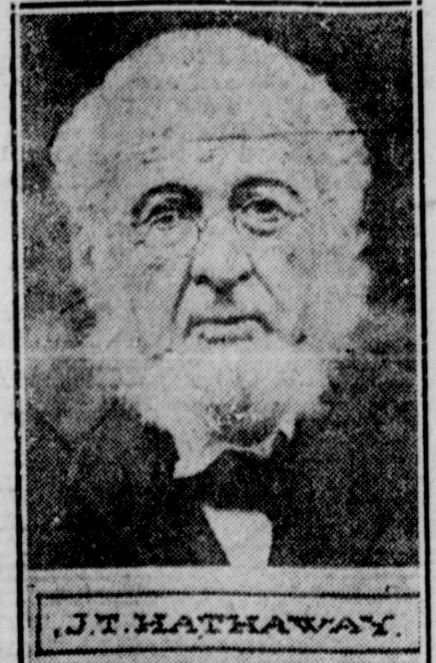

## HOOVER ISSUES NEW RADIO POWER ORDER

Washington, Oct. 22.—Radio-casting stations will be permitted by the department of commerce to use more power in an effort to overcome static and generally give better service to listeners, under new regulations just issued here. Whereas power now is limited to one kilowatt, stations may use up to five kilowatts, beginning at 1,500 watts and increasing progressively 500 watts at a time up to 5,000 watts, if radio inspectors certify at each stage that the station is not interfering with others. Licenses for increased power will be granted only on an experimental and temporary basis. Radio inspectors will be made the final judges of interference and whether a station will be permitted more power or not.

## FRENCH TROOPS EVACUATE THE RUHR

Dortmund, Germany, Oct. 22.—Evacuation of the Ruhr by French troops got under way in earnest today when they departed from the city of Dortmund. French and German flags were flown when the French garrison forces began leaving at 10 o'clock. There was neither cheering nor hissing, no untoward demonstration. French and Belgian civilians bared their heads as the colors of the army of occupation passed, but the Germans remained stolidly inactive.

### He Voted for Lincoln; Is for Coolidge.

James T. Hathaway, of New Haven, Conn., ninety-three years old, a retired newspaper publisher, voted first in 1852 for General Scott. In 1856 he voted for Fremont, and in 1860 for Lincoln. The other Presidential candidates for whom he voted were Grant, Greeley, Clay Smith, first prohibition candidate; Garfield, Blaine, Harrison, McKinley, Roosevelt, Wilson, Harding and Taft. He will vote this year for Coolidge.

## PLANS CALLING FOR DIRIGIBLE GIVEN BY NAVY

### Proposed Ship Would Be Twice Size Of New ZR-3.

Washington, Oct. 22.—If congress and the director of the budget grant the appropriations now being asked by the navy department, a new military airship twice the size of the ZR-3 and Shenandoah will be built by the navy.

It was stated that although the size of the air leviathan will depend upon the money available, present plans call for a capacity of about 6,000,000 cubic feet. The ZR-3 contains 2,400,000 feet. No official announcement of the plans will be made until after the election even if the budget bureau approves the expenditure.

Although the Goodyear company of Akron, which has purchased the Zepplin rights for North America, is understood to be anxious for a naval contract to help build up its infant industry, naval officers want the new ship constructed at the Philadelphia naval aircraft factory where the Shenandoah was fabricated. But the Goodyear company would presumably furnish the special fabric called "gold beater skin" for the gas bags, similar to that in the Shenandoah. The Aluminum Corporation of America is expected to get the contract for the structural raw material.

Between \$2,700,000 and \$3,000,000 is the estimated cost of the new monster of the air. Though the Shenandoah, with a capacity of 2,150,000 cubic feet, cost over \$2,000,000, naval engineers claim that its construction was largely experimental and that the relative cost of a second ship could be halved. The fact that the ZR-3 under the treaty terms, through which it was acquired, can not be used for military purposes, is used by the navy as an argument for a sister ship for the Shenandoah.

## LUTHERANS START CAMPAIGN TO GO ON RECORD AS OPPOSED TO MILITARY SERVICE

Chicago, Oct. 22.—Militant pacifists of Lutheran faith, under the leadership of Dr. Samuel C. Trexler, president of the New York and New England synod today, were welding the thunderbolts of their anti-war creed which will clash about the fourth biennial convention of the United Lutheran Church in America, in an effort to place the church officially on record as opposed to war and military service.

Much of the thunder and lightning which the weather wise predict will rend the convention into bitterly opposing factions will be aimed at Dr. F. P. Pfatteicher, Reading, Pa., and the status quo resolution of his committee which holds that there are "just" wars and that in these Christians not only may, but should participate.

## BANK BANDITS GET \$4,000 IN DAY—LIGHT DARING HOLDUP OF CASHIER

### Force Official To Open Vault Early Wednesday at Greensburg, Pa., Institution And Then Tie Him Up.

Greensburg, Pa., Oct. 22.—State police and county authorities are making a wide search of the country between here and Johnstown for the two bandits who held up F. J. Sutton, cashier of the Citizens National Bank.

## EDUCATORS WANT SPECIAL CLASSES IN GRADE SCHOOLS

### Department Initiates Crusade to Break Up "Lock-Step"

Columbus, Oct. 22.—More special classes for bright or handicapped pupils is urged by the Ohio department of education, which has started a crusade to break up the "lock-step" in Ohio's grade schools.

The program, which has been recommended to school superintendents of Ohio for consideration, includes, in addition to enlargement of the field of special classes, proposals to extend subject classification to the grades, install a more flexible system of classification and grouping within each grade and provide more flexible treatment of pupils on promotion day.

The department conducted a survey of the school situation in Ohio before submitting the recommendations and in appealing to educators of the state for careful consideration of the proposals submitted recognition is given to the fact that "finances must of necessity be weighed in making changes."

Supporting the program as one deserving of recognition, the department points out that "while consideration of costs rightly causes us to deal with children in groups, still the finest manifestation both of administrative skill and teaching technique is the teaching of each individual with something peculiarly appropriate for him, while the economy of handling large numbers of children together is secured."

Subject classification, permitting a more varied selection of studies in grade schools, is held by the department to be as sound fundamentally as subject classification for high schools. In urging promotion as soon as progress warrants, listed as reclassification, it is held that "the child should not be expected to force himself upon the attentions of teachers and administrators," but that "machinery should be devised whereby pupils who can profit by this type of adjustment may easily obtain it."

Traffic Fatalities.  
Columbus, Oct. 22.—Jesse D. Stalter died of injuries received when his automobile crashed into a viaduct partition. He was thrown through the windshield. Fred Villard, 29, bricklayer, was fatally injured when struck by a machine while he was attempting to cross a street.

New State Park.  
Columbus, Oct. 22.—A new state park is being established at the northeast corner of Lake St. Marys, the state highway department announced. The ground comprises 30 acres.

## MILLIONAIRE AND ACTRESS HELD FOR TOLEDO OFFICIALS

Toledo, Oct. 22.—Following their indictment here by a federal grand jury on charges of violating the Mann act, John Raynor Owens, Toledo millionaire, and Miss Irene Dalton, motion picture actress, under arrest at Los Angeles, are preparing for a legal battle to prevent their extradition to this city. Miss Dalton was released on \$5,000 bond and Owens furnished \$7,500 bond for his release. They were scheduled to appear before United States Commissioner Long at Los Angeles on Nov. 20.

Following receipt of news of their arrest in Los Angeles, Federal Judge John Killits wired the California federal authorities to hold Owens under \$10,000 bond and Miss Dalton at \$15,000. The indictments under which the couple were arrested were returned here Oct. 10, both of which were secret. Miss Dalton and Owens were named jointly in one, while the other named Owens alone. Miss Dalton is also named as correspondent in a divorce suit filed here in April, 1923, by Mrs. Owens, which has caused settlement of the Owens estate, valued at between \$2,000,000 and \$3,000,000, to be held up.

## HARRISON LOSES IN APPEAL CASE

Columbus, Oct. 22.—Ohio supreme court refused to review the conviction of Dwight Harrison, former vice president and treasurer of the R. L. Doolings company. Harrison was indicted in the state courts with William G. Benham, president and secretary of the Doolings concern, on charges of embezzlement and making false representations.

The appeal of William H. Chatfield, Jr., and George H. Beazell, both of Cincinnati, former members of the firm of Beazell & Chatfield, brokers, from conviction of embezzlement charges, also was denied by the state supreme court.

Both Harrison and Benham are under sentences aggregating 45 years in federal prisons, as a result of their conviction upon a number of charges of using the mails to defraud, in connection with the collapse of the Doolings company and its subsidiaries.

## FIVE SLAYERS TO DIE IN MONTREAL

Montreal, Oct. 22.—Twenty heavily armed provincial police are guarding the Bordeaux jail following receipt of threats that five condemned murderers awaiting execution on Friday will be added to the guard and on the day set for the hanging 100 armed guards will line the route of the death march. The men, Tony Frank, Louis Morel, Frank Ambino, Mike Valentino and Giuseppe Seranni, are to be hanged for the murder of a chauffeur during a holdup last April.

Washer

The washer whose wonderful record has won for itself world leadership

Just think what it would mean to use a washer that cleans a tubful of clothes in from 5 to 7 minutes; that has a tub of cast aluminum 1/8 to 1/4 inches thick, that will never rust, corrode, wear out, shiver, split or dent; that does not rub the clothes and therefore does not wear them; that washes by water action alone. The Gyrofoam will wash your clothes in one half to one quarter of the time and will clean collars and cuffs without rubbing. We can tell you all about these wonderful points and more too but you must see it in your own home washing your own clothes to realize its true worth and value.

Mr. Lytle, of the Maytag factory, will be here Thursday to demonstrate the matchless features of the wonderful Gyrofoam Washer.

The beacon was purchased by the auto club. The club also announced that two Reflex danger signals will also be installed within a week at Selma, where the Pennsylvania Railroad crosses the Columbus Pike. One will be installed on each side of the track. The beacons will reflect the light a distance of 200 yards as an improvement over the old type of signals which were noticeable for a distance of but about thirty yards.

### Motorist Asphyxiated

Cleveland, Oct. 22.—Fumes of carbon-monoxide gas, generated by an automobile motor, took the life of Paul Link, 31, who was found dead in his garage.

### Notes For Women

A new antiseptic has been discovered that is four times as powerful as Carbolic Acid.

It is much more powerful than bichloride of mercury.

Yet it is so harmless that one can drink it and so mild in its action that it is a healthful wash for the most delicate membrane.

Chemists say it will take the place of harsh poisonous germ killers. By getting a 60 cent bottle of Kojene at Sayre & Hemphill or any good drug-gist women can learn much of personal hygiene that will be of benefit to them.

### Anderson Conviction Upheld.

Albany, N. Y., Oct. 22.—The court of appeals unanimously upheld the conviction of William H. Anderson, former state superintendent of the Anti-Saloon league, who was convicted in New York county of forgery in the third degree. Anderson is now in Sing Sing prison.

## DRUGS EXCITE THE KIDNEYS, DRINK WATER

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

## DOING THINGS

Ordinarily it is considered high praise when we say of a man that he is of the sort who does things. But the phrase is large and vague, and it needs to be promptly qualified. For some of those who do things are prone to act without thinking, to leap without looking, and their conduct is expensive as well as precipitate.

To do the wrong thing or to do the right thing in the wrong way is not praiseworthy. Great American leaders made mistakes. It was not for their blunders that we admire and praise them still. They atoned for the errors by useful acts and constructive accomplishments far more valuable and numerous.

Nobody loves a man who for fear of doing the wrong thing sits in idleness, who demurs and postpones, who never admits that the hour has struck for the decisive act. But a craven timorosity that sees bogeys everywhere and lions in the way is a disposition wholly different from a laudable precaution that weighs the consequences and sees the end from the beginning.

They who sink ships and devastate the land in making war are doing things but the diabolic issue is ruin and anguish. They may even get themselves extolled in the history books as magnificent conquerors, and because they quelled and cowed and slew over wide area they may be deemed glorious, but the race to whom they have brought grief and mourning cannot sincerely hail them as benefactors.

The world turns from the reverent contemplation of egocentric militarists to its faithful servants who wrought for those still, spiritual victories of the laboratory of science, the room wherein sessions of quiet thought above the tumult of the street, the clacker and chaffer of the market place.

Those who by science forward the world's work are doing things too. They may not be summoned to the debate of statesmen or the cabinet of administration. They may not be sent on diplomatic errands and they may not have the crowds run after them to hear their speeches. But they also serve. We cannot judge of the valuable accomplishment of men and women by the noise they make. Sometimes where there is the least of tumult there is the maximum of accomplishment.

## THE SUCKER LIST

It may be some comfort to those who are on the "sucker lists" to know that almost every shrewd business man at some time in his life "falls" for securities that are anything but secure and that after his death these gilt-edge stock certificates that have far less worth than paper sacks are found hidden away in his safety box by his executor. But there is a difference between a wise business man who occasionally gets "sucker" in this way and the average person who suffers a similar fate.

The former usually goes into a doubtful investment purely in the spirit of gambling, figuring that the chances are very favorable for him to lose, but hoping he may win. He does not put in much money either, but his financial condition is affected. He buys stock in this way he does so in the same spirit that he plays a poker game. But the person who usually is "sucked" by fake "securities" salesmen cannot afford to lose the money he puts into such stocks. An investment of that kind is likely to be all in a day's gamble for the man of wealth, but it is more than likely to cause deep injury to anybody else. And then, again, some of the bad stocks that may be found in the safety deposit vaults and obscure desk drawers of bank presidents and others were given to them outright by companies that sought to use the names of prominent persons as stockholders in order to induce others to subscribe to the stock.

## THE BLESSED "ROCKEFELLER FOUNDATION"

To many persons the very name of a "report" is affrighting. It conjures up serried rows of statistics, sere as autumn leaves. But the Rockefeller Foundation report for 1924 is different. To read between the large, clear print of its lines is to take in a story of diversified human interest. On one page there are pictures of four fish that devour mosquitoes and thus reduce the toll from malarial fever and malaria; at another point is the airplane that took a doctor on a trip of inspection in Colombia and saved four lives of his time. We see Chinese and Japanese paying international visits to teach as well as learn new modes of healing, and a trained nurse emerges repeatedly as heroine of successful efforts to combat malignant pestilence. With little noisy bruiting, the work of the foundation marches on to victory after victory, in warfare without cessation against the common enemies of mankind, a warfare whose end is not destruction but amelioration and whose cause is blessed.

### PRAYER

And not pray for gifts or common things,  
For fortune's smile or even victory  
Sweet;  
And not ask that I be spared the stings  
Of cares of life which every man  
Must meet.

And not pray to be relieved from wrong  
Never keen its pain, but I would ask  
To come the test, that God shall make  
Grant me strength to complete my task.

Give me the faith to trust and still  
Keep on  
Through the darkness and the fearful

### Saints to Play Seattle.

St. Paul, Minn., Oct. 21.—The St. Paul club, winner of the American Association championship and conqueror of Baltimore, International League champions, left here today for Seattle for a nine-game series with the winner of the Pacific Coast league title. The first game will be played Saturday. In its series with Seattle, which is to settle the minor league championship, the Saints will have their 1924 team intact. The Saints are scheduled to arrive in Seattle Thursday night, getting in one day's practice before the series opens.

War Veteran Heads For Davis.  
Washington, Oct. 21.—The Democratic national committee issued a statement saying that 15 national leaders of war veterans came out for John W. Davis. President Coolidge and the Republican administration were severely criticized by the former service men, headed by Alvin Owsley, former commander of the American Legion, for their attitude toward the men who fought in the war. The statement cited the scandal and graft in the veterans' bureau, and declared that its signers could name dozens of instances in which hospital were located for political reasons.

## THE WORN OUT MACHINE

I noticed in my newspaper this morning two items. One told of a man in Chicago who felt so fine that he went home and danced a jig, whereupon he dropped dead.

The other item told of the collapse of an aeroplane at Dayton, Ohio. The experts say that the machine was too old, that it was all worn out and should have been discarded two years before the accident. Negligence cost a human life.

I recently visited a sanitarium. Over two thousand people were there "to be repaired."

Some people have the feeling that things "run on forever" without care or attention. They wake up in bed.

Every movement in life means wear and tear somewhere. But God put intelligence in the world to counteract this condition and thereby prolong usefulness to its allotted time.

I talked with a man the other day who is in his ninetieth year. He didn't seem much older and surely not less happy than when I saw him ten years ago. He was still running his machine gracefully.

A little oil in the bearings of your bodily and mental machinery in the shape of kindness, forbearance, love, generosity, happy concord, and thoughtfulness, will run your machine over the roughest roads of life.

It pays to pay attention.

The stenographer who gets to her work just a few minutes before she is required and takes time to oil and

clean her typewriter, has a much happier day than the one who does not—and she soon rises to something more than a stenographer.

I have in mind two young men who rose to be Secretary to the President of the United States through this procedure.

## To Build Giant Zeppelin.

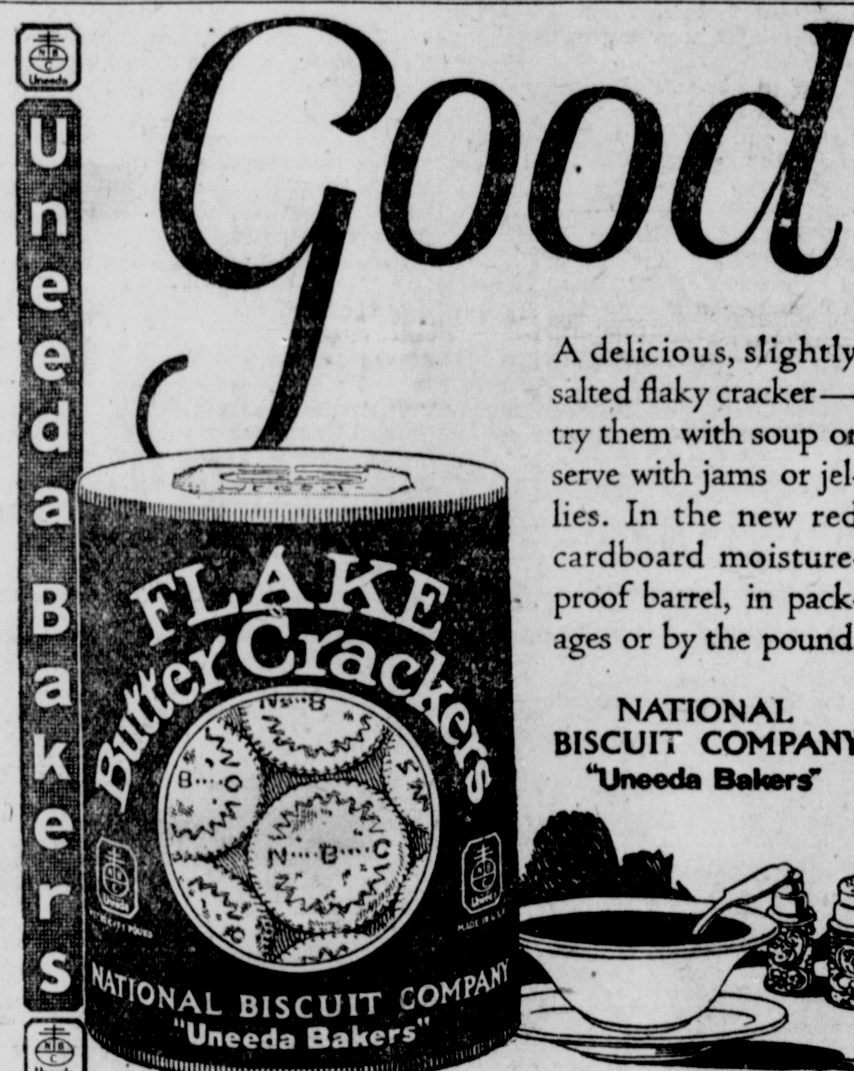

Akron, O., Oct. 21.—Paul W. Litchfield, vice president and general manager of the Goodyear-Zeppelin corporation, announced that plans have been perfected to construct a Zeppelin airship of 5,000,000 cubic feet, twice as large as the ZR-3. It will be designed especially for transatlantic service. Several other airships already are under construction by the Goodyear Tire and Rubber company, of which the Goodyear-Zeppelin is a subsidiary. Among them is the RS-1, the first semirigid dirigible ever built in this country and one of the largest ever made.

## REPUBLICAN RALLY THURSDAY TO DRAW GOOD ATTENDANCE

Reports from the banquet committee on the sale of tickets for the Republican banquet-rally Thursday night at the Knights of Pythias dining hall are to the effect that the tickets are going fast, and the sale above expectations.

The banquet is not entirely for Republican workers, but will be a general get-together meeting of the Republicans in the county, and every one who is fortunate in obtaining one of the tickets will be welcomed.

Many notable Republicans, a majority of the state candidates and several Republican speakers, have been invited to attend the rally, and with few exceptions, have accepted the invitation.

Among the state candidates who will be present are Joseph T. Tracy, auditor of state, Thad Brown, secretary of state, Harry S. Day, treasurer of state, Albert H. Kunkle, candidate for the court of appeals, Charles H. Lewis, candidate for lieutenant governor, and Charles C. Crabbe, state attorney general.

The speakers are Major Charles W. Montgomery, former chairman of the Republican State Central Committee, who will deliver the main address, Dr. W. R. McChesney, president of Cedarville College, Congressman Charles Brand, of Urbana, and Mrs. William G. Rockel, of Springfield, a member of the Republican State executive committee.

All reservations for tickets will be made with either P. H. Creswell, chairman of the Banquet Committee, or Earl Short, treasurer and secretary of the committee.

The banquet is not an invitation affair and any Republican who desires to attend is requested to make reservations for tickets at the earliest moment to avoid the rush and insure himself a place in the hall.

Mrs. Lulu Butler is spending a few days in Hagerstown, Ind., visiting her parents.

## MODIFICATION OF NEW TRAFFIC ACT TO BE CONSIDERED

Two recommendations for changes in the proposed traffic ordinance drawn up by City Solicitor J. A. Finney will probably be brought up at the commission meeting Thursday night at City Hall, and the new ordinance will be either approved or rejected, with small possibility of the latter taking place.

The two proposed changes which will probably be discussed, are the speed limit question and the "main thoroughfares" topic. The state law declares that the maximum speed limit in the business district of any city is fifteen miles an hour with a leeway of five miles an hour in the residence sections.

A section in the proposed city traffic ordinance makes the maximum speed limit in the business section twenty miles an hour and in the residence and outlying districts, thirty miles an hour.

Sentiment appears to favor modifying this limit to a speed of but twenty miles an hour in the city residence districts, although several of the members are said to favor making the speed clause similar to the state law, which provides for maximum limits of fifteen and twenty miles an hour in the city.

The "main thoroughfare" question has been varied slightly, and instead of making certain streets, main thoroughfares, the commission will probably designate certain streets as principal streets of the city, and compel all traffic entering upon these streets from intersecting streets to stop at the intersections before proceeding. This will give

traffic on the main streets right of way.  
No other business other than the traffic ordinance question is scheduled to come before the meeting, except the usual routine work.

## PROUDFIT TO HEAD XENIA MINISTERS

The Rev. C. P. Proudfit, pastor of the Second United Presbyterian

Church, was re-elected president of the Xenia Ministerial Society, at the recent October meeting. The Rev. F. W. Stanton, of the First M. E. Church, was elected vice president and the Rev. D. A. Sellars of the First Reformed Church, was made secretary-treasurer.

The Rev. R. E. Brown of the First Baptist Church, was appointed to preach the Thanksgiving sermon at the Reformed Church.

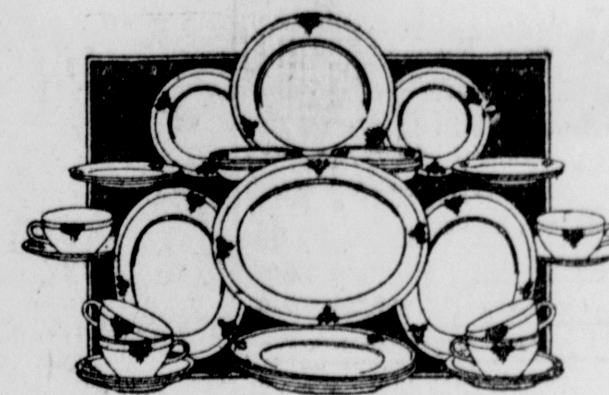

Friends of Mrs. Sue L. Wead, may call at the Wead home after 7 o'clock, Wednesday evening.

City Manager S. O. Hale, Attorney C. W. Whitmer and Mr. T. J. Kennedy of the Peoples Building and Savings Company are attending the state meeting of the Building and Loan organizations, at Columbus, this week. Judge H. L. Smith and Mr. and Mrs. LeSourd of the Home Building and Savings Company are also attending the meeting.

Miss Louise B. Shaffer, executive secretary of the Greene County Red Cross will address students of Antioch Academy on Junior Red Cross work, Thursday morning.

## DIES SUDDENLY ON STREET TUESDAY

Stricken while enroute to the suburban car to go to his home in Springfield, Tuesday afternoon about 2 o'clock, Samuel Feaster, 64, of 427 East Main Street, Springfield, stepfather of Mrs. Harry Greene and Mrs. Raymond E. Wagner of West Second Street, this city, dropped dead at the corner of Second and Mechanic Streets.

Mr. Feaster was carrying a heavy suitcase. He was taken ill on the street. He sat down on the curb and fell back dead. Neighbors called Dr. A. C. Mesinger and notified police and Dr. R. L. Haines, of Paintersville, county coroner. Patrolmen Thompson and Jones took the man to the Greene home after it was found death had already ensued. Death was due to apoplexy.

Mr. Feaster was employed as night watchman at the American Feeding Machine Company, Springfield. He had not been well for some time and was visiting with his wife at the home of Mr. and Mrs. Greene. He was enroute to Springfield to visit another daughter, Mrs. Harry Eifer, in Springfield, when stricken.

He is survived by his widow, three children, Mrs. Fifer, Miss Bessie Feaster and Samuel Feaster, Jr., of Springfield, besides Mrs. Greene and Mrs. Wagner.

Funeral services will be held at the Greene home, Friday afternoon at 2 o'clock, with interment in Woodland Cemetery.

### IN HARD LINES

"I could not work at all and had to take to my bed with a high fever due to intestinal indigestion, gases in my stomach and pain in my right side. I had spent my last cent for doctors and medicine, which gave me no relief. I was in despair. A judge brother gave me a bottle of Dr. S.S.S. Wonderful Remedy, and the first dose relieved me. Thanks to this medicine I am now in the best of health." It is a simple, harmless, real remedy that removes the catarrh from the intestinal tract, cures the inflammation which actually attacks all stomach, liver and intestinal ailments including appendicitis. One dose will convince you. Money refunded. Sayre & Hemphill and druggists everywhere.

## Pimples

You will be startled how quickly and thoroughly you can stop skin eruptions and beautify your complexion with S.S.S.

PIMPLES are the first thing one notices in another person's face. It is too often cruel in its misjudgment. It judges from what it sees on the outside. Pimples are easy to get rid of. More red-cells! That is what you need when you see pimples staring at you in the mirror. Red-cells mean clear, pure, rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from blackhead pest, from boils, from eczema and skin eruptions; from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S.S.S. will add Nature in building them for you! S.S.S. has been known since 1826 as one of the greatest blood-builders, blood-cleansers and system strengtheners ever produced. Start taking S.S.S. today. Its medicinal ingredients are purely vegetable.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

## A THREE DAYS COUGH IS YOUR DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga. (Adv.)

**WEATHER HINDERS  
ELKS' EXPOSITION  
AND CARNIVAL HERE**

A number of people braved the pre-rainy cool weather Tuesday night to enjoy the numerous attractions comprising the Exposition and Trade Show, the "under canvas" festival showing on the Dodds' Addition at Detroit and Church Streets under the auspices of Xenia Lodge of Elks, No. 688.

The second night of the festival saw all of the attractions and concessions, as well as the merchants' exhibits and the automobile show in full swing, all booth and concession space being taken.

The numerous concessions and the Radio Dance Hall were the principal features of attraction, while the many payette centers kept the crowd on edge, and made them forget the chilly weather.

Entering through the brilliantly lighted arch way, the populace obtained a first view of the attractions, which started with the county automobile show, where latest types of cars are on display.

Next came the merchant's exhibit, which proved attractive to the crowd. Numerous radios and music kept the crowd entertained, and Company L Band, which paraded the business section of the city announcing the show, later took up its stand at the show grounds and added its noise to the din, vying with the orchestra and radios, in interest.

The dance hall did not open until several hours after the grounds were thrown open, but when once in full swing, was crowded until a late hour, music being furnished by a local orchestra.

Attractions for the younger generation were also much in evidence, and included a ferris wheel and merry-go-round.

Two other side shows, which proved popular were the silo-dome, where motorcycles were driven around the sides of a vertical inclosure at break-neck speed, and the regular side show, where freaks, such as the "girl with a million eyes," the "two-headed girl," the "monkey man," and other curiosities abounded.

The exposition was patronized well by the public, considering the weather, and with a promise of warmer weather for Wednesday, the grounds should be alive with fun-lovers, and show goers.

**CONTROL OF SHEEP  
WORMS IS SHOWN**

The control of stomach worms in sheep was demonstrated by Paul Gerlaugh of the Ohio State University Extension Service at two meetings in Greene County Tuesday, one held at the farm of A. E. Beam, of Spring Valley Township, the other at H. H. Stormont's Cedarville Township.

It was pointed out by Mr. Gerlaugh that stomach worms do more damage to the sheep industry in Ohio than any other cause. The control recommended was to rotate pastures every 30 days during the summer, or if this not possible, to drench the sheep with a solution containing two teaspoons of Black Leaf-40 in a quart of water three times during the season. About sixty-five sheep growers of Greene County attended the two refuges.

Poultry culling was also discussed by the county agent at the meeting at A. Beam's.

**SOUTH CHARLESTON  
BOOSTS FESTIVAL  
STAGED THIS WEEK**

Advertising three days and nights of merry-making, citizens of South Charleston visited Xenia Tuesday afternoon as a part of the "walk-around" staged over Greene County and through neighboring cities. The parade was led by a South Charleston citizen band and a number of machines and marchers followed, blowing horns advertising the coming carnival.

The South Charleston Fall Festival is to be staged October 23, 24 and 25. Outstanding features are a big horse show, Mardi Gras parade and masquerade ball, October 23, at 8 p. m., trained animal show, automobile show, free open air acts, horse-shoe tournament, clay pigeon shoot, domestic science, art and needlework exhibits; fruit and small grain exhibits platform dancing, all three evenings; band concerts, corn

show, baby show, grand parade, grand parade Saturday October 25, at 10 o'clock.

"Dusty" Miller, Wilmington newspaper man and humorist will give an address October 25, at 8 o'clock.

**ASKS FOR STRAIGHT  
REPUBLICAN VOTES**

The regular meeting of the Coolidge East End Republican Club Tuesday night, was featured by an address delivered by E. P. Banks, of Dayton, who urged upon his people to vote the straight Republican ticket. Mr. Banks was assisted by Mrs. Hurd, also of Dayton, who gave a short talk.

Mrs. Banks, in referring to the Democrats, said that the rebel of the South was the polished Democrat of the North, and criticized the gentlemen from Missouri who are trying to abolish the Fourteenth Amendment, which would deprive the Negro race of its voting privilege.

Mr. Banks also forcibly impressed upon his race to stand by the Repub-

lican party and its principals, as that party, he said, was the only salvation of the colored race.

A large crowd heard Mr. Bank's speech.

**COLUMBUS PIKE  
BEING REPAIRED**

Finishing touches to the newly laid macadam extending on the

Columbus Pike from the city limits of Xenia to the corporation line, a distance of three-quarters of a mile, will be begun the latter part of this week according to County Surveyor W. J. Davis. Finishing touches will consist of tarring the new macadam, which will necessitate more detouring for several days.

Tar will also be laid on the pike at Cedarville it was announced Tuesday. Work will be begun in several days, if the weather continues to be favorable.

**POLICE COURT

**MODISH MITZI—Jewelry Whose Greatest Value Is Style**

By Jay V. Jay

Adelaide is wearing a new filigree gold necklace with earrings to match. Notice the bracelet, too. This jewelry is not ten karat, or any karat at all—just gold dipped. And that is the way with most of the new trinkets. They don't have to be real or genuine. No one expects them to be.

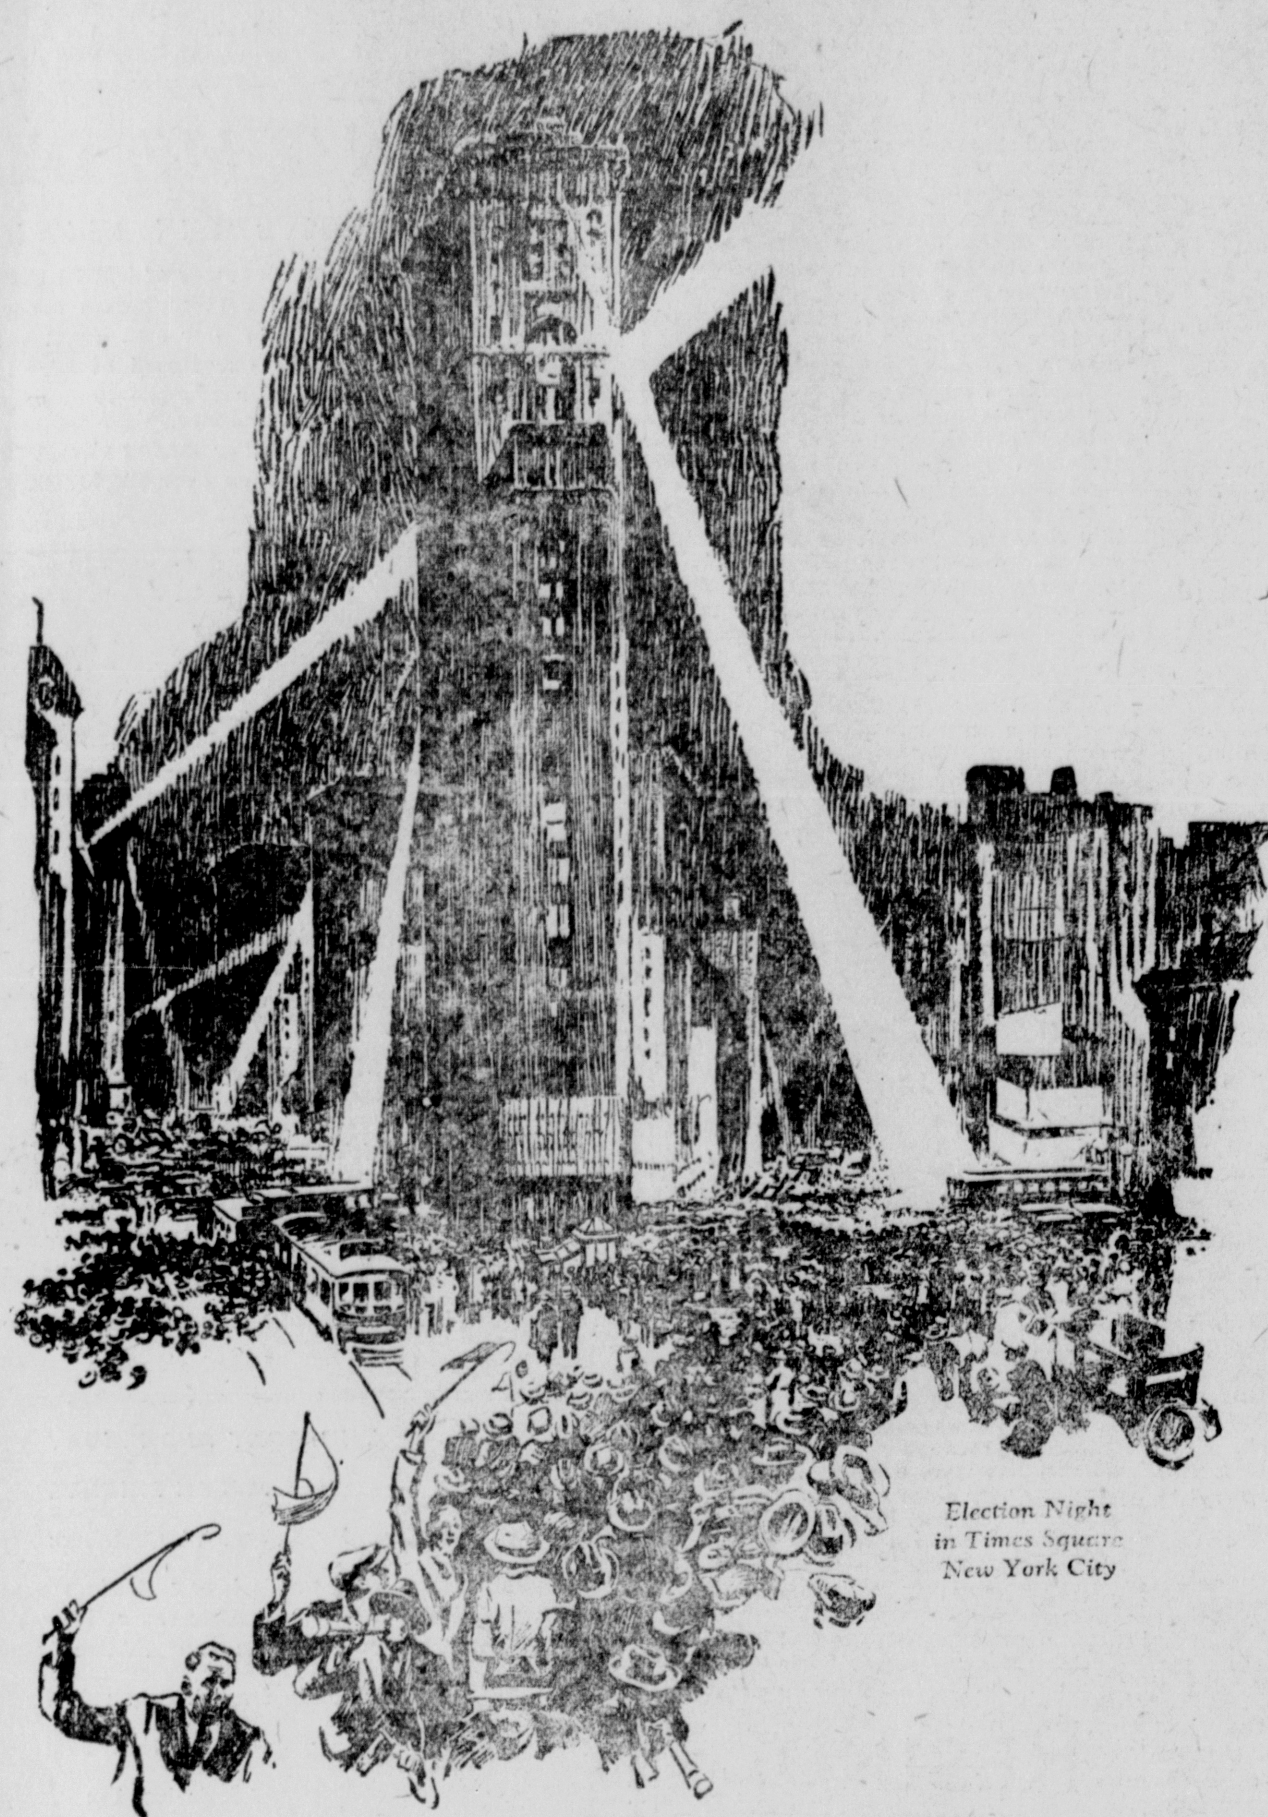

Polly is wearing emeralds and pearls. In her hair she wears a bobbed hat comb studded with "diamonds." The bracelet and the festoon necklace match; they are made of emerald pearls and the clasp in the back is also emerald color. The little dangles on the back of the necklace are new.

Mitzi's long earrings are made of pearls and amber. The cutting of the amber is to make it glitter. The double strand necklace Mitzi wears matches the earrings. These are pearls that one can wear without a detective shadowing one or without all sorts of insurance against fire flood and theft.

Think of wearing this bracelet of rubies and tiny pearls, or this flexible one of diamonds or this armlet of chip diamonds! Synthetic jewelry has won a popularity that genuine jewelry could never attain. The most valuable thing about it is the "style" which is as new as the last minute.

## ZANETTA COUNCIL RECEIVES ORDER OF POCAHONTAS HERE

Members of Zanetta Council, No. 120, Daughters of Pocahontas were hostesses at the District School of the order, comprising several councils of the state, at the Red Men's Hall, Monday afternoon and evening.

For the first time in five years Xenia entertained the delegates numbering 150 and the meeting was presided over by Mrs. Harry Karch, district deputy. The meeting was attended by three state officers, Mrs. Nora M. Tumbleton, Van Wert, O., Great Pocahontas; Mrs. Johanna Haines, Hamilton, Great Winona and Mrs. Ella M. Browning, Urichsville, Great Keeper of Records.

The afternoon session was featured by the School of Instruction in which the delegates took part. Zanetta Council, of this city had charge of the memorial program, an impressive part of the ritual, in which sixteen women took part.

In the evening, Springfield council staged the degree work, with five candidates from Zanetta Council and one from Dayton. Dinner was served in the lodge hall, with covers for 150 people.

Four long tables were arranged with one table at which covers for the state officers were placed. Each table was centered with a basket of flowers and tiny American flags were placed at each cover.

The dining room and lodge hall were decked with autumn flowers and foliage. Mrs. Fannie Ledbetter was chairman of the committee, with six assistants. Mrs. Ella Blake and Mrs. Charles Brewer composed the reception committee and Mrs. Charles Grandin and Mrs. Miriam Dorman were on the decorating committee.

#### How to Make Pine Cough Syrup at Home

Has no equal for prompt results.  
Takes but a moment to prepare,  
and saves you about \$2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup. To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—irritated membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

### BRINGING UP FATHER

## The Truant Soul

By  
Victor Rousseau

A nurse passed the window and came up the steps.

"Mrs. Webb, you won't say a word about what I've told you to the others, please?" asked Joan.

She flew upstairs and, flinging herself down on her bed, stared out dully toward the monument. The catastrophe had swept her little, unsheltered world away. The sense of her loneliness swept over her like a black cloud, appalling her. She was cut off from life, and utterly helpless outside the medium in which she had lived.

Because she felt this sense of homesickness, her outraged pride began to vanish before the terrors that her imagination conjured up. Starvation, the ultimate terror of her childish days on the estate, which like a living thing had gnawed into her mother's nine hundred dollars, seemed incredibly real and near. She must ask for her position back!

She must face Lancaster in his home, humble her pride, and bow to him; but she watched the sun decline and the shadows lengthen, and for a time she could not bring herself to her task.

What strengthened her at last was the realization that her status must be settled before she faced the day nurses coming home off duty. She slipped on her cloak and went out of the house softly, and to escape the landlady's attentions Joan went hastily toward Lancaster's house.

She had passed it almost daily on her journeys to and from the hospital. It was an ordinary brick house in a new block at the north end of the park, and commonplace enough, but now, to her excited eyes, it seemed to reflect the grim personality of its owner in the staring windows, with the shining door knobs of brass, and the brass name plate. Her heart was beating with panic, and it was with difficulty that she contrived to press the bell and to remain until the door was opened.

A white attendant confronted her—a sullen, undersized man with square shoulders, who scowled at her as he stood blocking the passage.

"Doctor Lancaster?" asked Joan.

"He doesn't see patients after five," answered the man.

"I must see him. It is important," faltered the girl.

"Well, I'll find out if he can see you," the fellow grumbled. "Walk in if you want to."

He had not recognized Joan's uniform beneath the cloak. She gave him her card and went into the waiting room. There the sense of the terror which made that place its domain, the accumulated fears of all who had ever waited there for the approaching verdict, seemed to leap out at her.

Then Joan heard Lancaster's voice in the next room, which was divided from her waiting room by folded doors. It was audible as a bass rumble, emerging occasionally into a distinguishable sound. Lancaster was talking with somebody, and he was

"I Must See Him; It Is Important,"  
Faltering the Girl.

growing angry. That was an ill omen of what was to come!

Joan braced her nerves. She was anything but a coward, and, having made up her mind, she intended to carry her scheme through.

Suddenly Lancaster's voice was raised in violent altercation.

"A nice mess you've made of everything!" he cried. "I've tolerated you too long. I've been a fool, but I've finished with you now. Go back where you came from!"

Another voice spoke in indistinct tones. It was that of a man, and it was almost abject in contrast with Lancaster's violence.

"I've finished with you, I tell you!" cried Lancaster. "I've borne this burden long enough. You can get out of my house. You can get out of my life."

"I've borne it long enough, too," replied the other, doggedly. "Who started it? Who made the first proposal?"

"I did, out of kindness to you. And how have you repaid me?"

"By placing myself, soul and body, at your service," retorted the second man, aroused into some show of spirit.

"Who picked you out of the gutter and set you on your feet?" rejoined the doctor. "Answer that! You can't!"

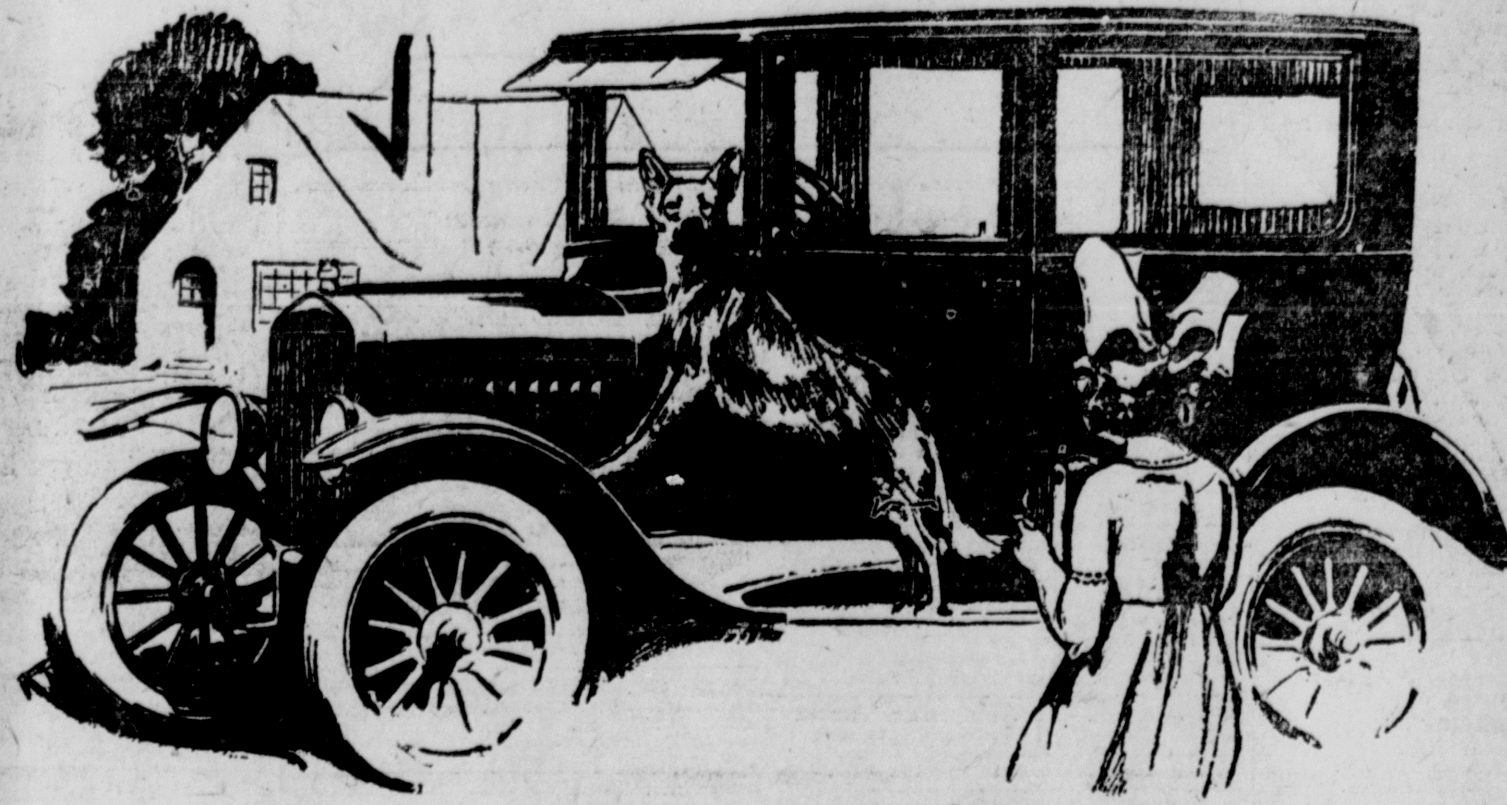

"You know you can't! Where would you be today if it were not for me?"

The second man said something in a low voice.

"Myers? A lot I care about that!" retorted Lancaster. "I tell you—what's that?" The white attendant was speaking at the door. Joan recognized his rasping voice.

"No! No!" cried Lancaster, violently. "I see nobody. Why can't these women come during my hours? Aren't they posted plainly enough upon the card in my window? Tell her—what? Important? Well, let her wait, then, until I get ready to see her."
